EDUCATION

University of California San Diego
B.Sc in Mathematics - Computer Science

San Diego, CA
Sep. 2021 – Mar 2025

EXPERIENCE

Data Annotator

October 2025 – Present

Toloka AI | *Data Labeling, Quality Assurance, Model Evaluation*

Remote

- Annotated and validated large-scale datasets for machine learning models across domains such as natural language processing and image recognition.
- Ensured data quality through inter-annotator agreement checks and outlier identification, improving dataset consistency by 20%.
- Collaborated with data scientists to refine annotation guidelines, supporting model training pipelines and downstream analytics.
- Utilized analytical dashboards to monitor project metrics and optimize labeling efficiency.

Software Engineer Intern

Jan 2024 – May 2024

More Seconds | *MongoDB, React, TypeScript, Node.js, Express.js, Docker, OpenAI, Python*

Remote, USA

- Containerized development environment with Docker, ensuring consistency and streamlined deployment.
- Performed data analysis through bar and line charts for implementing AI agent across various dashboards, improving developer task allocation accuracy by 30%.
- Developed and validated APIs to support **data pipelines**, ensuring accuracy and reproducibility.
- Developed full-stack features for developer dashboards like displaying mutual followers and billable toggle, optimizing projects and sub-projects management processes by 60%.
- Used Git and Agile methodologies for iterative development and on-time feature delivery.

Full Stack Intern

Aug. 2022 – Sep 2022

ThatNeedle.com | *JavaScript, Flask, HTML, CSS*

Remote, India

- Engineered backend pipelines to process and serve multi-year stock trend data and enabling dynamic sector-wise comparisons via **Chart.js** visualizations, driving a 30% increase in platform engagement.
- Built an interactive geo heat map with **Leaflet and D3.js** to analyze global population disparities, allowing stakeholders to identify high-risk regions for targeted resource allocation.
- Optimized visual layout and color schemes to improve readability and user engagement.

PROJECTS

Credit Card Fraud Detection | *Python, NumPy, Pandas, SciKit Learn*

- Processed 6M+ transactional records; applied SMOTE to handle imbalance, and engineered features with **MinMaxScaler** and **LabelEncoder**, predicting frauds using **Logistic Regression** and **Random Forest Classifier**.
- Improved classification performance by replacing Logistic Regression with Random Forest, boosting accuracy from **92.4% to 99.9%** and **F1 score from 6.1 to 88.7**.

E-commerce Sales Dashboard | *Tableau, Excel, Financial Data*

- Used provided **ERDs** to transform multi-segment e-commerce sales data with **SQL** (JOINS, CTEs, aggregates, CASE statements), delivering clean, analysis-ready datasets for reporting and dashboards.
- Designed an interactive Tableau dashboard with **KPI cards**, **geospatial heat maps**, **dual-axis charts**, **calculated fields**, **parameter controls**, and **dashboard actions** to deliver insights by segment, region, and manufacturing origin, optimized with data source filters.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, Java, C/C++, R, HTML/CSS

Web Development Skills: React Native, React NextJS, Flask, Express.js, Django, React Redux, PyGame, pandas, NumPy, Matplotlib, Scikit-learn, Socket.io, Tableau, NoSQL, MySQL, MongoDB, Supabase, REST APIs Docker, AWS, Heroku, Vercel

Relevant Coursework: Data Structures, Computer Organization, Discrete Mathematics, Data Mining, Numerical Optimization and Linear Algebra

Online Courses: GitLab CI/CD: Pipelines, CI/CD and DevOps for Beginners, Google Data Analytics, Tableau Fundamentals
